aries of Lots 5 and 6, Block 5 of Lot 205, and Sub-lot 34, Township 7A, of said Plan 2441, to the westerly boundary of Lot 7, Block 5 of Lot 205, and Sub-lots 34 and 35, Township 7A, of said Plan 2441; thence southerly along the said westerly boundary of Lot 7, Block 5 of Lot 205, and Sub-lots 34 and 35, Township 7A, Plan 2441, to the south-west corner thereof; thence north-easterly along the south-easterly boundaries of Lots 7, 8, and 9, Block 5 of Lot 205, and Sub-lots 34 and 35, Township 7A, of said Plan 2441, to the southerly boundary of said Sub-lot 35, Township 7A, Plan X 66 (Sheet One); thence easterly and northerly along the southerly and easterly boundaries of said Sub-lot 35, Township 7A, Plan X 66 (Sheet One), to the south-west corner of that part of Sub-lot 35A, Township 7A, shown on Registered Plan 820621; thence easterly and northerly along the southerly and easterly boundaries of the said part of Sub-lot 35A, Township 7A, Plan 820621, to the southerly boundary of aforesaid Sub-lot 36, Township 7A, Plan X 66 (Sheet One); thence easterly along the southerly boundary of said Sub-lot 36, Township 7A, Plan X 66 (Sheet One), to the south-east corner thereof, being the point of commencement, containing by admeasurement 217 acres of land, more or less, praying that the inhabitants of such area may be incorporated as a village municipality:

And whereas the said area is not now included within the limits of any municipality:

And whereas the petition was sufficiently signed and verified to satisfy the Lieutenant-Governor in Council that a majority of the adult resident non-property owners and a majority of the adult resident owners of property within the area desire the incorporation of the village municipality:

And whereas the Honourable FRANK MACKENZIE ROSS, C.M.G., M.C., Lieutenant-Governor of British Columbia, by and with the advice of the Executive Council, under and by virtue of the powers and authorities conferred on him in that behalf enabling, hath ordered that the inhabitants of the area hereinbefore described shall be incorporated as a village municipality under the said Act, and hath further made provision to the tenor and effect hereinafter appearing:

NOW KNOW YE that by these presents We do order and proclaim that the inhabitants of the area hereinbefore described shall, on, from, and after the date hereof, be incorporated as a village municipality under and subject to the provisions of the "Village Municipalities Act" and under and subject to the provisions hereinafter contained or referred to:—

1. The municipality shall be called and known by the name and style of "The Corporation of the Village of Montrose" (hereinafter referred to as the "village municipality").

2. The village municipality shall comprise all that area of land hereinbefore described.

3. The provisions of the "Village Municipalities Act" shall, except as varied by the terms of these Letters Patent, apply to the village municipality.

4. For the year 1956 the revenue of the village municipality shall include the sum paid under the provisions of paragraph 5 of these Letters Patent.

5. There shall be paid from the Consolidated Revenue Fund to the village municipality an amount equal to the taxes levied under the "Taxation Act" for the year 1956 upon the real property within the said village municipality. Payment shall be made as soon as is practicable after such sum has been ascertained.

6. Kenneth Arthur Manton, Jack Carwardine Yolland, John Thornber, Spencer Davies, and James Castleman are hereby appointed a Board of Commissioners of the village municipality, and they shall hold office until their successors have been elected at the first annual election in the month of December, 1956, in the manner provided in the Schedule to the "Village Municipalities Act," and the election of Commissioners thereafter shall be as provided in the said Schedule.

7. The Commissioners hereby appointed shall make due preparation for the holding of the first annual election, to be held in the month of December, 1956, as provided in the Schedule to the said Act.

8. The assessment roll for the year 1957 shall be prepared in accordance with the provisions of section 12 of the "Village Municipalities Act."

9. The Commissioners shall have power at any time prior to the first day of December, 1956, to incur liabilities by borrowing money, or otherwise, not exceeding in the whole the sum of two thousand dollars (\$2,000) for the purpose of carrying on the business of the village municipality until the revenues for the year 1956 are available for that purpose, and any liability so incurred shall be repaid out of the revenue for the year 1956.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent and the Great Seal of Our said Province to be hereunto affixed.

WITNESS, the Honourable FRANK MACKENZIE ROSS, C.M.G., M.C., Lieutenant-Governor of Our said Province of British Columbia, in Our City of Victoria, in Our said Province, this twenty-second day of June, in the year of our Lord one thousand nine hundred and fifty-six, and in the fifth year of Our Reign.

By Command.

DEPARTMENT OF PUBLIC WORKS

PARKING REGULATIONS, ESSONDALE AREA, ESSONDALE, B.C.

NOTICE is hereby given that, pursuant to Order in Council No. 1472, approved June 13th, 1956, and pursuant to section 49 of the "Department of Public Works Act," the following regulations be made:—

1. These regulations, numbered 1 to 5, shall apply to the use by the public, or by any person, of the following described lands in the Essondale area at Essondale, in the Province of British Columbia: All of Lot 23, Group 1, New Westminster District; all of Lot 60, Group 1, New Westminster District, save and except 2.25 acres according to Plan 15623 deposited, and save and except part 2.49 acres as shown coloured red on Plan 761 deposited; the southerly 95 acres of Lot 168, Group 1, New Westminster District, according to reference plan deposited No. 17330F; part 161.3 acres of Lots 168 and 169, Group 1, New Westminster District, according to Reference Plan 3488; all of District Lot 170, Group 1, New Westminster District, save and except part 13.46 acres as the same is shown coloured red on Plan 761 deposited, and save and except part 4.53 acres according to Plan 15623 deposited; District Lot 305, Group 1, New Westminster District, save and except Parcel A, reference plan with fee deposited No. 21917E, and save and except part 6.29 acres as shown coloured red on Plan 761 deposited; Parcel 1, Reference Plan 5457, of Parcel A1 of Lot 305, Group 1, New Westminster District, as shown on reference plan with fee deposited No. 21917E; Lots 4 to 30, inclusive, Lot 17A of Lot 343, and part of Lot 341, Group 1, Plan 1702, New Westminster District, and those portions of Lots 34 and 35 lying west of the McLennan Road, Lot 343, Group 1, Plan 1702, New Westminster District.

2. Except as provided in Regulation 3, no person shall park or leave standing any vehicle, whether attended or unattended, upon any part of the Crown lands referred to in Regulation 1.

3. The Minister of Public Works may cause to be marked or otherwise indicated certain portions of the driveways, grounds, or areas of the said Essondale area as public parking areas for use by members of the public or as private parking areas for the use by such persons only as are named or designated by the Minister.

4. Where any vehicle is parked or left standing in any portion of the aforesaid Crown lands, contrary to these regulations, any officer or constable of the Royal Canadian Mounted Police may impound such vehicle and remove, or cause to be removed, the same therefrom to any place where vehicles may be lawfully left parked, and the owner of such vehicle shall, before regaining possession thereof, pay all costs which may have been incurred as a result of such impounding, removal, and parking.

5. Any person who violates any provision of these regulations shall be guilty of an offence and shall, in addition to all other penalties and provisions to which he may be subject, be liable, on summary conviction, to a fine of not less than five dollars and not more than fifty dollars.

W. N. CHANT,
Minister of Public Works.

RAILWAY DEPARTMENT

"RAILWAY ACT"

PURSUANT to the provisions of section 7 of the "Railway Act," being chapter 285 of the "Revised Statutes of British Columbia, 1948," His Honour the Lieutenant-Governor in Council has been pleased to approve the following certificate, numbered 882, signed and sealed this 19th day of June, 1956:—

Certificate No. 882

"RAILWAY ACT"
(Chapter 285, R.S.B.C. 1948)

The British Columbia Electric Railway Company, Limited, having made application for leave to construct a spur track across Thirteenth Street in New Westminster, B.C., at Mile 11.52, District 1, to serve McMillan Distributors Company Limited, and the City of New Westminster having signified its approval, as shown on Plan No. 2379 filed in the Department of Railways:

Now, therefore, I, William Ralph Talbot Chetwynd, Minister of Railways of the Province of British Columbia, hereby certify that, pursuant to the provisions of sections 31 and 157 of the "Railway Act," being chapter 285, R.S.B.C. 1948, I have granted permission to the British Columbia Electric Railway Company, Limited, to construct the spur track as shown on Plan No. 2379, subject to the following conditions:—

- (1) That all costs entailed in the construction and maintenance of the spur track to be borne by the applicant;
- (2) That additional sign-boards to indicate "Two Tracks" be affixed to the existing crossing sign-post, to face both directions on Thirteenth Street.

In witness whereof I have hereunto set my hand and seal this nineteenth day of June, in the year of our Lord one thousand nine hundred and fifty-six.

[L.S.] RALPH CHETWYND,
Minister of Railways.

NOTICE TO CONTRACTORS

NORTH OKANAGAN ELECTORAL DISTRICT

Gravel-crushing (for Bituminous Surfacing)
at Vernon, B.C.

SEALED TENDERS, marked "Tender for Gravel-crushing, North Okanagan Electoral District," will be received by the Minister of Highways, Parliament Buildings, Victoria, B.C., up to 12 o'clock noon (Pacific Daylight Saving time) on Thursday, the 12th day of July, 1956, and opened in public at that time and date.

Specifications and conditions of tender may be obtained from the Department of Highways, 635 Burrard Street, Vancouver 1, B.C., or from the undersigned, on deposit of a sum of ten dollars (\$10), which will be refunded on their return in good condition within a period of one month of the awarding of the contract, except in the case of the successful contractor where the plan deposit is not refundable.

Each tender must be accompanied by a certified cheque in the amount of 5 per cent of the tender price, which may be substituted by the successful contractor, if he so wishes, for a performance bond equal to 100 per cent of the tender price as security for the due and faithful performance, observance, and fulfilment by the contractor of all the covenants, provisions, agreements, conditions, and reservations contained in the contract to be observed, performed, and complied with on the part of the contractor.

The cheques of unsuccessful tenderers will be returned to them when the contract has been awarded.

Tenders must be made out on the forms supplied and enclosed in the envelope furnished.

Tenderers must submit with their tenders a list stating the type, capacity, and present location (so that inspection can be made if necessary) of the equipment in their possession or at their disposal that is immediately available for the carrying-out of the work within the time-limit specified without in any way curtailing or delaying any Departmental project that may be under contract at this date. No tender will be considered that does not contain this information.

No tender will be accepted or considered that contains an escalator clause or any other qualifying conditions, and the lowest or any tender will not necessarily be accepted.

LEGISLATIVE ASSEMBLY

PRIVATE BILLS

EXCERPT FROM STANDING ORDERS RELATING TO PRIVATE BILLS

100. (1) All applications to the Legislative Assembly for Private Bills of any nature whatsoever shall require the publication of a notice clearly and distinctly specifying the nature and object of the application, and when the application refers to any proposed work, indicating sufficiently the location of the work, to be signed by or on behalf of the applicant.

(2) Such notice shall be published in The British Columbia Gazette and once a week in one leading daily newspaper freely circulating in all parts of the Province. The notice in such newspaper to appear on Wednesday of each week.

(3) When the proposed Bill is of such a nature that it may particularly affect one or more electoral districts, the notice shall furthermore be published once a week if possible in some newspaper in every electoral district affected, or if there be no newspaper published therein, then in a newspaper published in the electoral district nearest thereto.

(4) The publication of such notice shall in all cases be continued for a period of four weeks during the interval of time between the close of the next preceding Session and the consideration of the petition.

97. No petition for any Private Bill shall be received by the House after the first ten days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any report of any Standing or Select Committee upon a Private Bill be received after the first four weeks of each Session, and no motion for the suspension or modification of this Standing Order shall be entertained by the House until the same has been reported on by the Committee on Standing Orders, or after reference made thereof at a previous sitting of the House to the Standing Committees charged with the consideration of Private Bills, who shall report thereon to the House. And if this rule shall be suspended or modified as aforesaid, the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the petition has been received after the time hereinbefore limited, shall in either case pay double the fees required in respect of such Bill by this rule, unless the House shall order to the contrary.

98. (1) Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight clear days before the opening of the Session:—

- (a) A printed copy of such Bill;
- (b) A copy of the petition to be presented to the House;
- (c) Copies of the notices published, with publication proved by a statutory declaration or affidavit to the satisfaction of the Clerk of the House.

(2) At the time of depositing the Bill and petition the applicant shall also pay to the Clerk of the House the sum of three hundred dollars.

(3) If a copy of the Bill, petition, and notices proved as aforesaid shall not have been so deposited in the hands of the Clerk of the House at least eight clear days before the opening of the Session or if the petition has not been presented to the House within the first ten days of the Session, the amount to be paid to the Clerk shall be six hundred dollars. If the Bill shall not pass second reading one-half of the fees shall be returned.

101. Every petition signed by an agent or attorney in fact shall be accompanied by the authority of such agent or attorney in fact, and the petition shall not be deemed to be filed with the Clerk until this is done.

102. Before any petition praying for leave to bring in a Private Bill for the erection of a toll-bridge is received by the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed by Standing Order 100, also at the same time and in the same manner give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts or vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.

103. (1) All Private Bills for Acts of incorporation shall be so framed as to incorporate by reference to the clauses of the general Acts relating to the details to be provided for by such Bills: Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the general Act is proposed to be departed from. Bills which are not framed in accordance with this Standing Order shall be recast by the promoters and reprinted at their expense before any Committee passes upon the clauses.

(2) Every Bill for an Act of incorporation, where a form of model Bill has been adopted, shall be drawn in accordance with the model Bill (copies of model Bills may be obtained from the Clerk of the House). Any provisions contained in any such Bill which are not in accord with the model Bill shall be inserted between brackets or underlined, and shall be so printed.

(3) Any exceptional provisions that it may be proposed to insert in any Bill shall be clearly specified in the notice of application for same.

107. All Private Bills shall be prepared by the parties applying for the same, and printed in small-pica type, twenty-six ems by fifty ems, on good paper, in imperial octavo form, each page when folded measuring 10¾ inches by 7½ inches. There shall be a marginal number every fifth line of each page; the numbering of the lines is not to run on through the Bill, but the lines of each page are to be numbered separately. Three hundred copies of each Bill shall be deposited with the Clerk of the House immediately before the first reading. If amendments are made to any Bill during its progress before the Committee on Private Bills, or through the House, such Bill shall be reprinted by the promoters thereof.

In the case of Bills to incorporate companies, in addition to the fee of \$300 mentioned in Rule 98, fees calculated on the capital of the company are payable at the same time. Further particulars can be had on application to the undersigned.

All cheques in payment of fees must be certified.

Dated January 5th, 1949.

E. K. DEBECK,
Clerk, Legislative Assembly.

The locality in which the operations of the Society will be chiefly carried on is the County of Cariboo and the County of Prince Rupert, in the Province of British Columbia.

Given under my hand and seal of office at Victoria, Province of British Columbia, this fourth day of June, one thousand nine hundred and fifty-six.

[L.S.]

A. H. HALL,

Deputy Registrar of Companies.

The objects of the Society are:—

(a) To develop and maintain the highest standards of construction and business methods in the road-building and heavy-equipment industry:

(b) To promote co-operative liaison and a better relationship between its members and all government departments and officials:

(c) To promote an accident-prevention programme, with a resultant saving of live and reduction in workmen's compensation rates:

(d) To encourage any improved methods which relieve road contractors and heavy-duty equipment operators of needless financial risk:

(d) To be a source of information, investigation, and scientific research, pertaining to contracting and engineering methods, implemented by government departments and owners:

(f) To consider the form of contracts, specifications, and bonds, and to make suitable representations to officials and corporations relative thereto:

(g) To facilitate the interchange and rental of machinery and equipment among Association members:

(h) To assist in the collective purchasing of materials, machinery, repair parts, etc., and to secure, when possible, agency rates and privileges:

(i) To expedite favourable arrangements for the Association members with respect to railway rates, demurrage, travelling privileges, and similar matters:

(j) To promote better understanding and goodwill between the general public and the industry generally:

(k) To foster and promote constructive legislation and fair practices and dealings in the road-construction and heavy-equipment industry:

(l) To combat unfair practices:

(m) To encourage efficiency:

(n) To carry on a constructive educational programme with the members of the Association and the public at large, and to promote sound business practices with the view of raising the construction industry in importance in the business world:

(o) To act on behalf of the members generally in negotiation with labour, government bodies, other contractors, and business people generally:

(p) To investigate and recommend to its members proper and accurate cost-accounting methods, methods of establishing rates for the use and rental of equipment, and generally to advise and counsel its members on costs, financing, and contracting:

(q) To provide methods and means whereby the members may avail themselves of greater authority and combined efforts through the Association in demanding and securing just and honourable dealings with the public and others:

(r) To make membership in the Association a reasonable assurance to the public and to all with whom the members of the Association may deal of the skill, responsibility, and integrity of its members:

(s) To secure uniformity of action among the members of the Association, upon the general principles set forth in the constitution and by-laws of this Association and upon such other special matters as may be decided upon from time to time as being in the best interests of the Association, its members, and the industry generally. 55—1626

(o) To insure with any person or company against losses, damages, risks, and liabilities of any kind which may affect the Company either wholly or partially, and if thought fit, to effect any such insurance by joining or becoming members of any mutual insurance, protection, or indemnity associations, federation or society, and to accept any such insurances, or any part thereof, for the account of the Company:

(p) To establish, promote, form, and subsidize or otherwise assist in establishing, promoting, forming, or subsidizing any other company, and to prosecute or assist in the prosecution of any other undertakings or enterprises of any description and to secure by underwriting or otherwise the subscription of all or any part of the share, loan, or other capital, including any stocks, shares, or debentures, debenture stock, or other securities of this or any other company, and to pay or receive any commission, brokerage, or other remuneration in connection therewith and to obtain a settlement, quotation, or permission to deal upon any exchange in respect of any share, loan, or other capital of this or any other company:

(q) To pay all or any costs, charges, and expenses whatsoever of or preliminary, incidental, or relating to the promotion, formation, registration, or establishment of this or any other company, or to the raising, subscription, issue, settlement, quotation, or permission to deal upon any exchange, of or in any portion of the original or future share, loan, or other capital of this or any other company, and to remunerate by commission,

discount, or otherwise any person or company for services rendered in placing or assisting to place any of such capital, or obtaining or assisting to obtain a settlement, quotation, or permission to deal upon any exchange, of or in the same, or for any services preliminary, incidental, or relating to or in connection with the promotion, formation, registration, or establishment of this or any other company:

(r) To receive money on deposit at interest or otherwise, and to lend and advance money to such persons and companies and on such terms as may seem expedient:

(s) To raise and borrow money and secure the payment of money by such means, upon such terms and conditions, and in such manner as may be determined, and particularly by the creation or issue of bonds, mortgages, debentures, debenture stock, or other securities, either perpetual or terminable, and charged specifically or by way of floating charge or otherwise upon all or any part of the undertaking, property, rights, and interests of the Company (either present or future or both), including its uncalled capital, or not entitled to any charge, and to redeem, purchase, or pay off any such securities, and to remunerate any trustees appointed in connection with any such securities, and to issue any such securities at a discount, premium, or otherwise, and in such manner as may be thought fit, and with or without any special rights, privileges, or conditions as to redemption, surrender, drawings, allotment of shares, conversion into shares, attending and voting at meetings of the Company, appointment of directors of the Company, or otherwise, and so that any such securities may be made assignable, free from any equities between the Company and any person or persons, and so that upon an issue of debenture stock, debentures may, if thought expedient, be issued to trustees as part of the security:

(t) To guarantee the payment of money and the performance of contracts or engagements entered into by any company or person, and to secure the payment of money and the performance of any contracts or engagements entered into by this or any other company or any person, and to discharge any debt or other obligation of or binding upon this or any other company or any person by a mortgage or charge upon all or any part of the undertaking, property, rights, and interests of the Company (either present or future or both), including its uncalled capital, or by the creation or issue of debentures, debenture stock, or other securities or by any other means:

(u) To draw, make, accept, endorse, seal, execute, negotiate, purchase, lend money upon, discount, hold, and dispose of, cheques, promissory notes, bills of exchange, drafts, charterparties, bills of lading, warrants, and other negotiable documents and contracts, deeds and other instruments, and to cancel and vary any such instruments:

(v) To lay out, advance, invest, and deal with the Company's moneys with or to such persons or companies and in or upon such investments or securities, and generally in such manner as may from time to time be determined, and to appoint any persons or companies to accept and hold in trust for the Company any property of the Company, and to remunerate any such persons or companies, and instead of itself holding any property, to hold all or any shares in any company, Canadian or foreign, which may hold such property:

(w) To make pecuniary grants by way of donation, subscription, allowance, gratuity, guarantee, or otherwise, to or for the benefit of persons who are or have been employed by the Company, and the widows, orphans, and dependents of any such persons and to or in aid of associations or funds for the benefit of any of these objects, and to hospitals, and for other charitable or benevolent objects:

(x) To make pecuniary grants by way of donation, subscription, or otherwise to or in aid of associations, societies, and other organizations for the defence, protection, indemnification, or advantage of companies or others for the promotion of or opposition to any scheme in connection with

traders either general or of any special description or for the promotion of or opposition to any Bill in Parliament or provisional order or for any similar purpose:

(y) To sell the whole of the undertaking, property, rights, and interests of the Company or any part thereof for any consideration in cash or shares, debentures, debenture stock, or other securities of any other company, whether fully or partly paid, or for such other consideration as may be thought fit, and to distribute among the members of the Company in kind any property of the Company, and in particular any shares, debentures, or securities of other companies belonging to the Company, or of which the Company may have the power of disposing:

(z) To exercise all powers given by the "Companies Act," 1948, and any other Act from time to time in force concerning joint-stock companies, and not hereby otherwise authorized:

(zz) To do all such other things as may be incidental or conducive to the attainment of all or any of the foregoing objects.

DEPARTMENT OF AGRICULTURE

“MILK INDUSTRY ACT”

NOTICE is hereby given that, by Order in Council No. 1607, approved the 29th day of June, 1956, His Honour the Lieutenant-Governor in Council has been pleased to approve the following regulations, made by the Minister of Agriculture pursuant to the “Milk Industry Act,” chapter 28 of the Statutes of British Columbia, 1956.

W. K. KIERNAN,
Minister of Agriculture.

*Department of Agriculture,
Victoria, B.C., July 3rd, 1956.*

REGULATIONS UNDER THE “MILK INDUSTRY ACT”

PART I

MINIMUM STANDARDS FOR APPROVED RAW-MILK DAIRY-FARMS AND MILK PRODUCED THEREON

1. (a) All cattle shall be free of tuberculosis and tested in accordance with the tests provided by the Department of Agriculture of Canada.

(b) All herds and additions thereto shall be tested and found free of brucellosis before any milk therefrom is sold, and all herds shall be retested annually or more frequently if directed by an Inspector and shall conform to the requirements of the “Contagious Diseases (Animals) Act.”

(c) Cattle which show a complete induration of one quarter or extensive induration in one or more quarters of the udder upon physical examination, whether secreting abnormal milk or not, except where such quarter or quarters are completely dry, shall be permanently excluded from the milking herd. Cattle giving bloody, stringy, or otherwise abnormal milk, but without entire or extensive induration of the udder, shall be excluded from the herd until re-examination shows that the milk has become normal.

(d) Where cattle have any agent or medicine or antibiotic injected into the udder, the milk from any such animal shall not be sold for human consumption until three full days have elapsed after the time of the last injection.

(e) For diseases other than tuberculosis and brucellosis, such tests and examinations as the Minister may require shall be made at intervals and by methods prescribed by him, and any diseased animals or reactors shall be disposed of as he may require.

2. Dairy-barns, milking-parlours, or other building or part thereof in which raw milk is produced or handled shall be situated, constructed, and segregated in a manner to prevent any contamination of the product. The surroundings shall be free from dirt, rubbish, animal or vegetable waste, and be well drained.

3. In dairy-barns the floors, gutters, and mangers shall be of concrete, except that feed-alleys may be of other impervious material and the cattle-stalls may be covered with lumber of good quality, tongued and grooved, or other material approved by an Inspector; the floors and floor gutters of all dairy-barns shall be water-tight; the floor gutters shall be of ample depth and width; the drainage of all dairy-barns shall be so constructed that all liquid matter that may fall or be cast upon the floor may be suitably disposed of.

4. (a) In dairy-barns the distance between each floor gutter and the wall shall be not less than six feet (6'), except where a dairy-barn has a double row of stalls facing the cattle to the outside walls, in which case the space between the floor gutters shall be not less than eight feet (8'). When a dairy-barn has a double row of stalls facing the cattle inward to a centre aisle, there shall be a space of not less than five feet (5') between the mangers.

(b) The space between gutters and walls and the space between gutters where a double row of stalls face the cattle to the outside walls shall be kept clear of obstructions.

5. Every dairy-barn shall have a clearance of at least eight feet (8') between the floor and the ceiling or between the floor and the lowest part of the rafters.

6. Every dairy-barn having an overhead storage-space shall be provided with a dust-proof ceiling.

7. All dairy-barns and barnyards shall be kept clean at all times, and the interior walls and the ceilings of the dairy-barn, milking-room, or milking-parlour shall be whitewashed or painted as often as may be necessary in good farming practice, or finished in a manner approved by an Inspector, and shall be kept clean and in good repair. All bedding shall be fresh, clean, dry, absorbent, and free from excess dust. All manure and litter which may have accumulated during the winter months in a building or structure, used for the loose housing of cattle, shall be removed in the spring of each year, or as directed by an Inspector.

8. No animals other than cattle and no fowl shall be housed with the herd producing milk.

9. A feedroom shall be provided for the storage of grain and mill-feeds. No dusty feeds or strong-odoured feeds shall be brought into the dairy-barn immediately prior to milking nor be stored therein.

10. (a) All dairy-barns shall be constructed as to provide adequate ventilation and lighting for the number of cattle kept therein.

(b) All cattle kept in the same dairy-barn shall receive the same provision and care. Cows and goats housed in the same dairy-barn shall be kept separated by a solid partition.

(c) All cattle in a herd shall be sketched, labelled, or tagged with a number or mark which will permanently identify them.

(d) All cattle shall be recorded in a herd record, which shall be accurately kept by the dairy-farmer so that their entrance to and departure from the herd, the dates of parturition, tuberculin testing, and brucellosis testing can be ascertained. Such record shall be accessible to the Inspector, and the dairy-farmer shall be responsible for its accuracy.

11. (a) (i) No milk-house shall be part of a dwelling or any other building or have direct entrance from any building. A milk-house may be attached to a dairy-barn, provided there is an impervious wall between the two structures and the door to the milk-house is in an outside wall and is at least four feet (4') from the entrance to the dairy-barn, or provided that there is a breezeway or vestibule between the two structures, open on one or both sides, and at least four feet (4') in width. The door of the milk-house opening on such breezeway or vestibule shall be self-closing.

(ii) When a building or part of a building known as a milking-parlour or milking-room used solely

for milking purposes is an integral part of a milk-house, a self-closing door shall be placed in a partition which shall separate the milking-parlour or milking-room from the milk-house.

(iii) Where a loose housing area is attached to the milking-parlour or milking-room, there shall be a full partition between, broken only by doors which shall be kept closed except when in actual use.

(b) (i) The milk-house shall contain a cooling and bottling room, cold-storage facilities, a utensil washing and sterilizing room, and a boiler-room (except where an electric hot-water tank is used) separate, which shall be used only for their proper purposes in the production, storing, packaging, and handling of raw milk alone. Floors and the walls to a minimum height of twelve inches (12") shall be of concrete or approved impervious material and smooth finish. The walls and ceilings shall be constructed so as to permit easy cleaning and shall be finished in an approved manner. While in use, the cooling or bottling room shall be entered only by persons employed therein or by Inspectors. Thermometers shall be used on all sterilizers.

(ii) Milking-parlour and milking-room floors and walls shall be of concrete or approved impervious material, and walls above the floor shall be of concrete for at least twelve inches (12") in height, and the walls shall be of smooth finish to permit easy cleaning.

(iii) No animal or fowl shall be allowed in the milk-house, and no animal other than cattle being milked and no fowl shall be allowed in any milking-parlour or milking-room.

(iv) There shall be adequate drainage, light, and ventilation in every milk-house, milking-parlour, and milking-room.

(v) Concrete or black-topped loading-space must be provided for loading or unloading of vehicles or wagons at the milk-house. Any vehicle used for carrying or delivering milk shall be kept in a sanitary condition and not used for any other purpose while conveying milk or milk products.

12. Approved toilet facilities shall be provided for the milkers and others handling milk. There shall be readily accessible thereto properly equipped hand-washing facilities.

13. A supply of pure water shall be maintained suitable and sufficient for all purposes in each dairy-barn, milking-parlour, milking-room, and milk-house.

14. (a) Privies, hog-pens, hen-houses, and manure-piles shall be located entirely separate and well apart from each dairy-barn, milking-parlour, milking-room, and milk-house. All necessary measures shall be taken to prevent the propagation of flies and sources of bad odours.

(b) All necessary measures shall be taken by the use of screen windows, screen doors, or other suitable appliances to prevent the entrance of flies and other insects, rats and other vermin to dairy-barns, milking-parlours, milking-rooms, and milk-houses.

15. (a) All cows shall be clean before being milked. The milk shall be placed in a closed receptacle as each cow is milked, and removed from the dairy-barn, milking-parlour, or milking-room and cooled as soon as is practicable. The milking shall be done in a cleanly manner and in a clean atmosphere. All dust shall be avoided immediately before and during milking.

(b) When milking is commenced, the first stream of milk from each teat shall be rejected.

(c) No milk shall be sold for human consumption from any cattle during a period of three (3) weeks before parturition or three (3) days after parturition, or during such further time as may be necessary before the condition of the milk becomes normal.

16. Clean clothing shall be worn during milking and during the time milk is being handled.

17. (a) All utensils shall be in good repair and free from any defect which might affect the quality of the milk; they shall be properly cleaned and sanitized before use in a manner approved by an Inspector, and shall be stored in such a manner as

to prevent contamination. Such operations of cleaning and sanitizing shall be carried out in the milk-house.

(b) All milking-stools, surcingles, and all other equipment used in the production of milk shall be kept clean at all times.

18. The milk shall be cooled as soon as practicable after being milked, and shall be kept at a temperature above freezing and below 50° F.

19. The milk shall be bottled and capped or cartoned upon the dairy-farm where it is produced. Milk-bottles shall be filled and capped and cartons shall be filled and sealed by mechanical equipment, and hand filling and capping or sealing shall not be permitted.

Quality Standard for Raw Milk

20. (a) The bacterial content of raw milk for human consumption in fluid form shall be not more than thirty thousand colonies per millilitre, and in the case of raw cream, sixty thousand colonies per millilitre.

(b) The Resazurin reduction time to mauve pink (P 7/4 Munsell colour standard) shall be not less than four hours when the sample is incubated at a temperature of 35.5° C. to 35.7° C. and otherwise tested according to standard methods.

21A. Satisfactory compliance to Regulation 20 shall be as follows:—

(a) If the logarithmic average of the results of the standard plate count of the last four consecutive samples is not more than thirty thousand for milk or sixty thousand for cream; and

(b) The reduction time to mauve pink (P 7/4 Munsell colour standard) on the Resazurin test is four hours or more.

21B. Where an Inspector finds that a vendor is delivering or holding for sale for human consumption raw milk or raw cream in fluid form which does not comply to the standard as set out in Regulation 20, and when unsatisfactory compliance has been determined according to the methods prescribed in Regulation 21A, he shall notify the vendor of the fact, specifying the nature of the non-compliance and that a further sample will be taken after four days and tested.

(a) If the non-compliance was in relation to the bacterial content according to Subregulation (a) of Regulation 20, the results of the plate count of the new sample shall be averaged with the previous samples according to the method set out in Subregulation (a) of Regulation 21A; and if there is still non-compliance, an infraction of the regulations shall have occurred, unless the plate count of the new sample is not more than thirty thousand bacteria colonies in the case of milk or sixty thousand bacteria colonies in the case of cream.

(b) If non-compliance was in relation to the Resazurin test according to Subregulation (b) of Regulation 20, a Resazurin test of the new sample shall be made; and if the reduction time is still less than four hours, an infraction of the regulations shall have occurred.

21C. All bacteria counts and Resazurin tests shall be conducted in accordance with "Standard Methods for the Examination of Dairy Products," latest edition published by the American Public Health Association (in these regulations referred to as Standard Methods).

21D. Samples for the determination of bacterial counts or Resazurin tests shall be taken by an Inspector at least once monthly and shall be selected indiscriminately either from the delivery vehicle or from the milk-storage room of the vendor.

22. Subject as hereinbefore provided, all specifications contained in this part relating to raw milk shall apply also to raw cream.

Minimum Standards for Approved Fluid-milk Dairy-farms

23. (a) All cattle shall be free of tuberculosis and tested in accordance with the tests provided by the Department of Agriculture of Canada.

(b) All cattle shall conform to the requirements of the "Contagious Diseases (Animals) Act" with respect to brucellosis.

(c) Cattle which show a complete induration of one quarter or extensive induration in one or more quarters of the udder upon physical examination, whether secreting abnormal milk or not, except where such quarter or quarters are completely dry, shall be permanently excluded from the milking herd. Cattle giving bloody, stringy, or otherwise abnormal milk, but without entire or extensive induration of the udder, shall be excluded from the herd until re-examination shows that the milk has become normal.

(d) Where cattle have any agent or medicine or antibiotic injected into the udder, the milk from any such animal shall not be sold for human consumption until three full days have elapsed after the time of the last injection.

(e) For diseases other than tuberculosis and brucellosis, such tests and examinations as the Minister may require shall be made at intervals and by methods prescribed by him, and any diseased animals or reactors shall be disposed of as he may require.

24. All dairy-barns shall be constructed so as to provide adequate ventilation and lighting for the number of cattle to be kept therein.

25. In the construction or reconstruction of dairy-barns the floors, gutters, and mangers shall be of concrete, except that feed-alleys may be of other impervious material and the cattle-stalls may be covered with lumber of good quality, tongued and grooved, or other material approved by an Inspector; the floors and floor gutters of all dairy-barns shall be water-tight; the floor gutters shall be of ample depth and width; the draining of all dairy-barns shall be so constructed that all liquid matter that may fall or be cast upon the floor may be suitably disposed of.

26. (a) In the construction or reconstruction of dairy-barns the distance between each floor gutter and the wall shall be not less than six feet (6'), except where a dairy-barn has a double row of stalls facing the cattle to the outside walls, in which case the space between the floor gutters shall be not less than eight feet (8'). When a dairy-barn has a double row of stalls facing the cattle inward to a centre aisle, there shall be a space of not less than five feet (5') between the mangers.

(b) The space between the gutter and wall and where a double row of stalls faces the cattle to the outside walls, the space between the gutters shall be kept clear of obstructions.

27. Every dairy-barn shall have a clearance of at least eight feet (8') between the floor and the ceiling or between the floor and the lowest part of the rafters.

28. Every dairy-barn having an overhead storage-space shall be provided with a dust-proof ceiling.

29. Existing barns from which a dairy-farmer is selling milk for human consumption at the time of these regulations becoming effective shall conform as closely as possible to the requirements of Regulations 24, 25, 26, 27, and 28, but subject always to the direction of an Inspector.

30. All dairy-barns and barnyards shall be kept clean at all times, and the interior walls and the ceilings of the dairy-barn, milking-room, or milking-parlour shall be whitewashed or painted as often as may be necessary in good farming practice, or finished in a manner approved by an Inspector, and shall be kept clean and in good repair. All bedding shall be fresh, clean, dry, absorbent, and free from excess dust. All manure and litter which may have accumulated during the winter months in a building or structure used for the loose housing of cattle shall be removed in the spring of each year, or as directed by an Inspector.

31. No animals other than cattle and no fowl shall be housed with the herd producing milk.

32. (a) All cattle kept in the same barn shall have the same provision and care.

(b) Cows and goats housed in the same barn must be kept separated by a solid partition.

33. (a) (i) No milk-house shall be part of a dwelling or any other building or have direct entrance from any building. A milk-house may be attached to a dairy-barn, provided there is an impervious wall between the two structures and the door to the milk-house is in an outside wall and is at least four feet (4') from the entrance to the dairy-barn, or provided that there is a breezeway or vestibule between the two structures open on one or both sides and at least four feet (4') in width. The door of the milk-house opening on such breezeway or vestibule shall be self-closing.

(ii) When a building or part of a building known as a milking-parlour or milking-room used solely for milking purposes is an integral part of a milk-house, a self-closing door shall be placed in a partition which shall separate the milking-parlour or milking-room from the milk-house.

(iii) Where a loose housing area is attached to the milking-parlour or milking-room, there shall be a full partition between, broken only by doors which shall be kept closed except when in actual use.

(b) (i) The milk-house, milking-parlour, and milking-room floors and walls shall be of concrete or approved impervious material, and walls above the floor shall be of concrete or approved impervious material for at least twelve inches (12") in height, and the walls shall be of smooth finish to permit easy cleaning.

(ii) No animal or fowl shall be allowed in the milk-house, and no animal other than cattle being milked and no fowl shall be allowed in any milking-parlour or milking-room.

(iii) There shall be adequate drainage, light, and ventilation in every milk-house, milking-room, and milking-parlour.

(iv) Adequate facilities shall be supplied for heating water to clean utensils, and part of the equipment shall consist of two-compartment stationary wash and rinse vats.

(v) Cooling facilities shall be adequate to cool and maintain milk as a satisfactory product.

(vi) Milk-houses shall be of adequate size to provide facilities for cleaning and sanitizing of utensils, for sufficient space for storage of all utensils and equipment, and for adequate cooling-space.

(c) (i) Specifications for a milk-house in which a farm holding-tank is installed shall include a minimum area of twelve feet (12') by fourteen feet (14') for tanks rated at three hundred gallons capacity and proportionately larger for larger tanks, and a reinforced-concrete floor with a gradient of not less than one-quarter inch ($\frac{1}{4}$ ") to one foot (1') to the drain. All drains shall be four inches (4") or more in diameter and properly trapped. All walls shall be of concrete construction or other approved material to a height of at least twelve inches (12") above the floor. All wall surfaces shall be smooth and finished in an approved manner. Ventilation and light shall be adequate, including an electric light directly over each holding-tank. The hose-port shall be at least six inches (6") above the milk-house floor or the outside ground-level, whichever is higher, shall have a self-closing trap door, and shall be located directly opposite the outlet valve on the holding-tank.

(ii) On the loading side of the milk-house, there shall be a reinforced-concrete slab equipped with suitable drainage and large enough to accommodate the tank-truck. This concrete slab shall extend to and be coved at the foundation wall beneath the hose-port.

(iii) Equipment and services in a milk-house in which a farm holding-tank is installed shall include double wash-sinks with mixing-taps supplying hot and cold water; a hot-water tank of not less than thirty gallons capacity or adequate supply of steam from a steam-boiler in a separate room and a dairy-hose connected to mixing-valves and long enough to use for rinsing the tank. All wash-tanks and hand-basins shall be connected to the underground drains and properly trapped.

(iv) A minimum of two feet (2') clearance shall be provided between the sides of the farm holding-tank and any wall of the milk-house, and

adequate additional space shall be allowed for normal milk-house operations.

(v) Where a surface cooler is used apart from the holding-tank, it shall be mounted at least two feet (2') from the tank and shall have a clearance of at least thirty inches (30") between the top of the pouring-tank and the ceiling.

(vi) Portable coolers shall not be located or used directly over the farm holding-tank.

(vii) Farm holding-tanks or tank outlets shall not be located directly over or close to floor drains.

(viii) Farm holding-tanks and tank-trucks shall conform to 3A Standards as defined in Regulations 71 and 72 and shall be constructed, installed, and equipped as required by such regulations.

34. (a) Every dairy-farm shall be provided with one or more sanitary toilets, conveniently located, and properly constructed, operated, and maintained, so that the waste is inaccessible to flies and does not pollute the surface soil nor contaminate any water-supply. There shall be readily accessible properly equipped hand-washing facilities.

(b) Existing milk-houses, milking-parlours, or milking-rooms from which a dairy-farmer is selling milk for human consumption at the time these regulations become effective shall conform as closely as possible to these regulations.

35. A supply of pure water shall be maintained suitable and sufficient for all purposes of each dairy-barn and milk-house.

36. Privies, hog-pens, hen-houses, and manure-piles shall be located entirely separate and well apart from each dairy-barn, milking-parlour, or milking-room and milk-house. All necessary measures shall be taken to prevent the propagation of flies and the creation of bad odours.

37. (a) All cows shall be clean before being milked. The milk shall be placed in a closed receptacle as each cow is milked, and removed from the dairy-barn, milk-house, or milking-parlour and cooled as soon as practicable. The milking shall be done in a cleanly manner and in a clean atmosphere. All dust shall be avoided immediately before and during milking.

(b) When milking is commenced, the first stream of milk from each teat shall be rejected.

(c) No milk shall be sold for human consumption from any cattle during a period of three (3) weeks before parturition or three (3) days after parturition, or during such further time as may be necessary before the condition of the milk becomes normal.

38. Clean clothing shall be worn during milking and during the time milk is being handled.

39. (a) All utensils shall be in good repair and free from any defect which might affect the quality of the milk; they shall be properly cleaned and sanitized before use in a manner approved by an Inspector and shall be stored in such a manner as to prevent contamination. Such operations of cleaning and sanitizing shall be carried out in the milk-house.

(b) All milking-stools, surcingles, and all other equipment used in the production of milk shall be kept clean at all times.

40. (a) Screen doors and screen windows or other suitable appliances shall be installed to effectively keep flies and vermin from all dairy-barns, milking-parlours or milking-rooms, milk-houses, and dairy utensils.

(b) Milk-stands shall be so constructed as to protect milk and milk-cans from dust, direct rays of the sun, frost, rain, and from any conditions or substances likely to impart odours or be detrimental to the quality of milk or manufactured milk products.

General

41. Certificates of approval of dairy-farms shall not be transferable.

42. Every dairy-farmer to whom a certificate of approval under the Act has been issued shall display the same prominently inside the milk-house on such dairy-farm.

43. Certificates of approval shall be in accordance with such form as may be prescribed by the Minister from time to time.

44. Where an Inspector finds that the holder of a certificate of approval is not operating in accordance with the conditions of such certificate, he shall give to the holder of such certificate a notice in writing cancelling the said certificate, or, at his discretion, where the holder is at fault in respect of operational methods only, fixing a period not exceeding ten days within which such default shall be remedied, or, where construction of or alteration to buildings or the purchase and installation of new or different equipment is necessary, giving such time as he may consider reasonable within which to comply with such directions as the Inspector may give in that regard. In the event of failure to remedy such default or to complete the construction or alteration to buildings or the installation of equipment as required within any such time fixed as aforesaid, the Inspector shall forthwith cancel the said certificate of approval by notice in writing. Copies of all notices under this regulation shall be filed forthwith with the Minister and, where the dairy-farm is in an area under regulation by the Board, with the Board. The Inspector shall also send a copy of such notice to the vendor to or through whom the milk from such dairy-farm is being marketed.

45. Where a certificate of approval has been refused, or where any such certificate has been cancelled as aforesaid, the dairy-farmer may make application to the nearest Inspector for reinspection.

46. Pending the inspection and grading of farms as approved raw-milk dairy-farms and approved fluid-milk dairy-farms in accordance with these regulations, the provisions of section 7, subsections (1), (2), and (3), of the "Milk Act," R.S.B.C. 1948, chapter 208, with the score-card heretofore used under the said section, shall apply as regulations hereunder, and the holders of certificates Grades A and B thereunder shall be deemed to be the holders of certificates of approval of the said dairy-farms as approved raw-milk dairy-farms and approved fluid-milk dairy-farms respectively, but the references in the said section 7, subsection (1), to Grade C or ungraded dairy-farms shall not apply. Forthwith upon the inspection and grading of the said farms as aforesaid, the said certificates Grades A and B, as the case may be, shall be replaced by appropriate certificates of approval under the "Milk Industry Act," subject to the result of such inspection and grading.

47. In unorganized territory or in a municipality which has not passed a by-law providing for the matters contained in this regulation, the Minister may authorize an Inspector to enter premises and stop vehicles at any time and take and remove samples of water and milk, reconstituted milk, and manufactured milk products therein or thereon, and make such tests as are necessary for the grading and testing of the same according to standards and methods of testing and grading set out in the regulations, and for the purpose of making any other tests and examinations which may be necessary in the public interest, and to determine whether the conditions of the Act are being carried out.

48. All vendors shall label with their respective names all bottles, containers, and cans containing milk or manufactured milk products for sale, and carriers shall not deliver milk or manufactured milk products in any vehicle unless such vehicle shall have painted thereon in a conspicuous place, in letters not less than three inches (3") in height, the name of the vendor of the milk or manufactured milk product carried for delivery.

49. After milk has been first placed in closed containers at any dairy or creamery by any vendor for the purpose of delivery or sale, no person except an Inspector shall open or remove milk from such containers before delivery to the final purchaser, except in cases where milk is sold for use in a "milk dispenser," and in such cases only when such "milk dispenser" has been approved by an Inspector and under conditions as directed by him.

50. Milk shall not be sold or delivered save in such containers as may be approved by the Department of Public Health, and in areas under regulation by the Board, approved by the Board; nor

shall milk be dispensed or served in cafés, restaurants, coffee-shops, hotels, or public eating-places or delivered to any household save in the original container, nor dispensed from any "milk dispenser" save such as is approved by an Inspector and subject to the conditions hereinbefore referred to.

51. All vehicles used to transport milk or manufactured milk products shall be kept clean, and provision shall be made to protect the product or products transported thereon from contamination and from dust, direct rays of the sun, frost, and rain, and from any conditions or substances likely to impart odours or flavours or be detrimental to the quality of milk or manufactured milk products.

52. Save as in the Act otherwise provided, any duty to be performed by the Minister or any approval, waiver, postponement, or exemption required to be given by him under these regulations may be performed or given by any official of the Department of Agriculture designated by the Minister, and the same shall for all purposes be deemed to be performed or given by the Minister.

PART II

LICENCES AND CERTIFICATES OTHER THAN CERTIFICATES OF APPROVAL AND BOARD ORDERS

53. (a) Every person applying for a creamery or dairy licence, a milk-tester's licence, a milk-grader's licence, a cream-grader's licence, a certificate of proficiency under section 16 of the Act, or a special milk-grader's licence authorizing a person (herein called a "tank-milk grader") to transfer milk from a farm holding-tank to a tank-truck shall make application in writing to the Minister, Parliament Buildings, Victoria, accompanied by the payment of a fee of one dollar (\$1) for each licence or certificate for which application is made.

(b) Certificates of proficiency shall be first class, second class, or temporary, according to the qualifications of the applicant under qualification requirements prescribed by the Minister from time to time.

(c) No application for a creamery or dairy licence shall be approved unless the applicant has complied with such of the regulations as are applicable to buildings, equipment, and qualifications of personnel.

(d) No application for a licence or for a certificate referred to in clause (a) of this regulation, other than a application for a creamery or dairy licence or for a renewal of a licence, shall be approved unless the applicant has successfully passed an examination conducted under the direction of the Minister, and which is appropriate to the licence or certificate for which the application is made, provided that pending the passing of such examination and conditional on the applicant having satisfactorily demonstrated his ability to properly perform the work for which he requires a licence, a temporary licence may be issued for such period as may be provided in such temporary licence.

(e) Milk-testers', milk-graders', and cream-graders' licences shall be issued subject to the condition that the holders of such licences are actively engaged in the work for which the licences are issued during the term or part of the term for which they are issued, and the renewal of such licences shall be subject to approval by an Inspector.

54. Every holder of a licence or a certificate of proficiency under section 16 of the Act shall keep such licence or certificate posted in a conspicuous position.

(i) In the case of a creamery or dairy licence, in the creamery or dairy in respect of the operation of which it was issued:

(ii) In the case of any other licence or certificate, in the creamery or dairy where the holder is employed.

55. Where an examination is required in respect of any licence under section 16 of the Act or any special licence as a tank milk-grader, it shall con-

sist of a practical and a written test as prescribed by the Minister.

56. Every licence and every certificate under section 16 of the Act shall be in the form prescribed by the Minister.

57. Every licence or certificate under section 16 of the Act shall be subject to the condition that the Minister, upon proof to his satisfaction of the fact of any violation of any provision of the Act or regulations and without the necessity of holding any hearing, may suspend the licence or certificate and all rights of the licensee or certificate-holder thereunder for such period as the Minister may see fit or may cancel the licence or certificate.

58. All licences under section 16 of the Act shall expire on the first day of January next following the date of issue or, in the case of a creamery or dairy ceasing operations before such date, on the date such operations cease.

59. Every milk-tester, every milk-grader, every tank-milk grader, and every cream-grader employed in the testing of milk, the grading of milk, or the grading of cream shall keep accurate copies of the records of all tests and grades made by him of the milk or cream received or purchased by the creamery or dairy where he is employed and shall submit such copies to an Inspector for scrutiny by him when required.

60. Persons holding subsisting pasteurizer operators' certificates shall be deemed to be qualified to pasteurize milk.

Sampling and Testing for Butterfat

61. Every licensee for the operation of a creamery or dairy, who is required under section 19 of the Act to deliver to the owner of the milk or cream dealt in or purchased an account of the amount and value thereof, shall cause samples representative and aliquot of every shipment of milk or cream received from a producer to be taken for testing. He shall cause such samples to be accurately tested for butter-fat content not less often than semi-monthly, and the weight, grade, and test of the milk or cream shall be delivered forthwith on completion of the test and shall be the basis or part of the basis on which the value of the milk or cream is computed.

62. (a) Every butter-fat test of milk or cream made by a milk-tester for any licensed creamery or dairy shall be made by the Babcock method and in accordance with instructions issued by the Canada Department of Agriculture relating to tests for milk, cream, butter, cheese, ice-cream, and dairy products (in these regulations referred to as the "Federal tests") and with the testing apparatus prescribed by such Federal tests, except where the use of methods and apparatus differing therefrom is permitted by direction of the Minister, and such tests shall be accurately recorded and reported by the milk-tester.

(b) An Inspector appointed for such purpose shall regularly examine for accuracy the work and the records of milk-testers, milk-graders, and cream-graders. Where such Inspector finds, on examination, that the tests made by a milk-tester, either by the Inspector's check test or by a retest made by the milk-tester as required by the Inspector and in his presence, are found to vary from the tester's original tests by more than one-tenth ($\frac{1}{10}$) of one (1) per cent in the case of milk tests and by more than one (1) per cent in the case of cream tests, the check tests so made shall be deemed to be the correct tests and shall be used as the basis or part of the basis for computing the value of the milk or cream for the period for which the test was made.

63. Every creamery or dairy where milk or cream is bought on a basis of butter-fat content, or where the butter-fat content is a factor in computing the value of milk or cream, shall have a testroom or place for testing which can be effectually closed off from draught or cross-currents of air, steam, or vapour likely to interfere with accurate weighing in connection with testing or the maintaining of proper temperature. Where scales or balances are used, they shall be mounted on a table, shelf, or bench free from vibration and having a level surface. The testroom shall be equipped according to the following standards:—

- (i) All the equipment necessary to operate and complete the Babcock test for milk, cream, skim-milk, and buttermilk as outlined and prescribed in the Federal tests:
- (ii) A level table or shelf of ample dimensions and suitable height on which the tester may carry out his operations without being hampered or crowded:
- (iii) A rust-proof tank or sink large enough to accommodate at least twenty-four samples in a supporting rack and convenient to hot- and cold-water connections:
- (iv) A sink for washing sample-jars, test-bottles, and other glassware used in testing:
- (v) Suitable racks for holding a minimum of twenty-four test-bottles.

64. (a) Every person operating a creamery or dairy where fluid milk is purchased on a basis of its butter-fat content, or where its butter-fat content is a factor in computing the value of the milk, and where such milk is received in containers other than tank-trucks, shall have an approved receiving-tank or weigh-tank into which each producer's milk shall be poured, and a sample taken immediately therefrom. The producer's milk shall be thoroughly mixed prior to sampling either by means of stirring in cans or by mechanical agitation in the weigh-tank. Before any producer's milk is placed in the receiving or weigh tank, the tank shall be completely empty.

(b) Where the milk is to be received in a tank-truck, the operator of such shall:—

- (i) Before transferring any milk from a farm holding-tank to a tank-truck, remove the measuring-rod and wipe it clean with a fresh tissue or paper towel:
- (ii) Reinsert the rod in the milk at the gauge point, withdraw the rod, read and record the measurement of milk as indicated by the surface line:
- (iii) Cause the milk to be agitated for not less than five minutes and take a composite sample of not less than four ounces made up of samples of equal size from each end and the middle of the tank:
- (iv) Store the sample in a tightly stoppered approved container at a temperature above freezing and below 50° F. for delivery to the testroom of the dairy to which the milk is consigned:
- (v) Take such other samples as are required:
- (vi) Read and record the temperature of the milk in the tank:
- (vii) File with the owner of the milk a copy of the record certified by the tank-truck operator showing the date of pick-up, the measurement in inches and fractions thereof, the weight in pounds as shown by the chart, and the temperature of the milk:
- (viii) If he finds milk in a farm holding-tank which, in his opinion, would be detrimental to the quality of milk in the tank-truck or to be placed in the tank-truck, notify the owner of his decision and leave the milk in the farm holding-tank.

65. (a) Where a test is made and certified by a milk-tester at a time not more than twenty-four hours after the time the milk or cream was received at the creamery or dairy, all samples from such milk or cream shall be kept by the licensee of the creamery or dairy under the conditions prescribed in the said Federal tests for the care of samples, for testing for a period of twenty-four hours after the test is made.

(b) Where a test is made and certified at a time more than twenty-four hours after the time the milk or cream was received at the creamery or dairy, all samples from such milk or cream shall be kept under the conditions prescribed as aforesaid for a period of seven days after the test is made.

(c) In case notice is given to a licensee requiring that a verification test be made under these regulations in respect of any sample, he shall keep such sample for such further period as is necessary to permit of the verification test being made.

(d) The testing of samples referred to in clause (b) of this regulation shall commence within forty-eight hours after the end of the test period referred to in Regulation 61 and shall be completed as quickly as possible consistent with the requirements for accuracy of the test.

66. Where the person who has supplied the milk or cream of which a test has been made and certified by a milk-tester is dissatisfied with the result of the test or the manner in which the test is made, he may notify the licensee of the creamery or dairy that a verification test is required of the sample of milk or cream so tested and may forthwith apply to the Department for a verification test. The application shall be in writing and shall be accompanied by a fee of five dollars (\$5). The verification test shall be made by a milk-tester designated by the Minister for the making of verification tests. The licensee of the creamery or dairy so notified shall permit the verification test to be made, and the milk-tester by whom it is made shall forthwith certify the result thereof and his report thereon to the Minister, the licensee of the creamery or dairy, and the person who applied for the making of the verification test.

Grading of Cream

67. Cream shall be graded immediately upon its arrival at the place where it is to be manufactured, according to the standards prescribed in Regulation 68.

Standards for Grading Cream for Manufacturing

68. The standards for the grading of cream for manufacturing purposes shall be as hereinafter set out. No other standards shall be applied, or advertised, or otherwise held out to be applied in the grading of cream at or through any creamery or dairy purchasing such cream, and every licensee for the operation of a creamery or dairy where cream is purchased for manufacturing shall cause a copy of the said standards to be kept posted in a conspicuous place at the creamery or dairy in plain view of all persons delivering cream thereat. The said standards shall be as follows:—

Premium Cream: This grade shall include any lot of cream which is non-frozen, sweet and clean in flavour and odour, and having an acidity of not more than eighteen one-hundredths of one per cent (0.18%) at the time of grading.

Special Grade: This grade shall include any lot of cream which is clean in flavour and odour and of uniform consistency and suitable for making finest-quality butter. The acidity of cream in this grade shall not be more than twenty-eight one-hundredths of one per cent (0.28%) at the time of being graded at the creamery where it is to be manufactured.

First Grade: This grade shall include any lot of cream which is clean in flavour and odour and of uniform consistency and suitable for making first-grade butter and shall not include any cream which is curdy, lumpy, bitter, stale, musty, metallic, or unclean, or objectionable in flavour or odour. The acidity of cream in this grade shall not be more than fifty-five one-hundredths of one per cent (0.55%) at the time of being graded at the creamery where it is to be manufactured.

Second Grade: This grade shall include any lot of cream which does not comply with the standards for first grade but is of sufficiently high standard so as not to be within the "no grade" category hereinafter referred to.

No Grade: This shall include any lot of cream unclean, mouldy, mildewed, or with a very objectionable flavour or odour, such as that of kerosene, gasoline, stinkweed, or onions. Cream of this grade or cream containing insects or other vermin or any other objectionable substance shall not be accepted or graded at any creamery or dairy.

For the purpose of designating any of the said grade descriptions and trade terms upon the daily record, and upon the statements that are to be issued and delivered to producers in compliance with the provisions of these regulations, the following abbreviations and no others may be used,

namely: "Pr." for Premium Cream, "Sp." for Special Grade, "1" for First Grade, and "2" for Second Grade.

69. Every licensee for the operation of a creamery or dairy where cream is purchased for manufacturing shall, at least as often as once each month, furnish to the Minister at Victoria a return, in a form to be furnished by him, showing the total quantity of cream of each grade, according to the standards of grading prescribed by these regulations, delivered at the creamery or dairy since the last preceding monthly return made by him.

Grading of Milk

70. (a) Every person who purchases milk which has not been graded by a licensed grader, and which, after pasteurization, is to be sold for human consumption in fluid form, shall examine, or cause to be examined, such milk according to the following method and standards:—

- (1) All milk received in cans shall be examined within two hours after its arrival at the creamery or dairy to which it is consigned:
- (2) Milk received in tank-trucks shall be examined in the farm holding-tank before transferring to a tank-truck:
- (3) The examination carried out under clauses (1) and (2) of Subregulation (a) of this regulation shall be for undesirable or objectionable flavours or odours and for physical defects, such as visible butter granules, evidence of blood infusion, insects or other vermin, coagulation of casein, a frozen or partly frozen condition, melted fat, or objectionable matter of any description. Tests for sediment by means of a sediment-tester shall be made as directed by an Inspector:
- (4) Any milk that after proper examination by a grader has any of the defects listed under clause (3) of Subregulation (a) of this regulation shall be set aside for manufacturing purposes if suitable, and if not suitable or if manufacturing facilities are not available shall be returned to the producer:
- (5) In addition to any examinations made according to clauses (1) and (2) of Subregulation (a) of this regulation, every person who purchases milk referred to in this regulation shall at least once during each butter-fat test period take a sample representative of each producer's shipment and shall test such sample for Resazurin reduction time:
- (6) (i) If the sample taken according to clause (5) of Subregulation (a) of this regulation shows, when tested, that the milk does not conform to the standard prescribed by this regulation, the person purchasing such milk shall notify the producer of the result of the test and that a further test will be made within seven days. The person purchasing such milk shall take a further sample within seven days but not sooner than four days after the date of notification to the producer, and the result of the test of such sample shall determine the classification of all of that producer's milk received during the remainder of the butter-fat test period during which the test was made, and until such time as a test of a single further sample taken not later than the fifth day of the next butter-fat test period shows that the milk does conform to the standard prescribed in this regulation; provided that, if after three consecutive butter-fat test periods the milk has failed to meet the prescribed standard, if the marketing of the said milk is not under control and regulation by the Board, the person purchasing such milk shall not be under obligation to receive it. If the marketing of the said milk is under control and regulation by the Board, the Board may suspend or revoke the producer's licence. In either case the producer's certificate of approval under section 4 of the Act may be suspended or cancelled:

(ii) During the period of receipt of milk which does not conform to the prescribed standard, the purchaser shall, if such milk is suitable for manufacturing purposes and facilities for manufacturing are available, use the same for such purposes only or return the same to the producer:

(iii) All milk which is to be returned to the producer shall be accompanied by a written statement as to the reason for its return.

(b) *Standard for Raw Milk for Pasteurizing for Human Consumption.*—Raw milk to be pasteurized for human consumption shall not include any milk which is sour, unclean in flavour or odour, or otherwise unsuitable for household use, and it shall have none of the defects listed under clause (3) of Subregulation (a) of this regulation. The reduction time to mauve pink (P $\frac{7}{4}$ Munsell colour standard) shall be more than three hours when subjected to the Resazurin test made in conformity with Standard Methods and as provided for in paragraph (i) of clause (6) of Subregulation (a) of this regulation. Table cream purchased as such shall include any lot of cream which is non-frozen, sweet and clean in flavour and odour, and which is produced on an approved raw-milk dairy-farm or an approved fluid-milk dairy-farm. The acidity of cream in this grade shall not be more than seventeen one-hundredths of one per cent (0.17%) at the time of grading.

Farm Holding-tanks

71. (1) All farm holding-tanks shall conform to the standards promulgated in the United States jointly by the Sanitary Standard Sub-committee of the Dairy Industry Committee, the Committee on Sanitary Procedure of the International Association of Milk and Food Sanitarians Incorporated, and the Milk and Milk Food Branch of the United States Public Health Service as the same may be amended from time to time (in these regulations referred to as "3A Standards") and be constructed and installed in such a manner that a measurement taken of the contents by a prescribed method with an approved gauge will at all times correspond with a predetermined number of pounds of milk within the tolerance amounts shown in the following table:—

Lb. of milk	Lb. of Tolerance
0 to 1,500.....	3
1,501 to 3,000.....	4
3,001 to 4,500.....	5
4,501 to 6,000.....	6
6,001 to 7,500.....	7
7,501 to 9,000.....	8

(2) For the purpose of enabling a representative sample to be secured, every farm holding-tank shall be equipped with a motor-driven agitator of such speed and design as to provide adequate agitation without splashing or churning the milk to restore uniformity of milk-fat content throughout the tank within five minutes of starting.

(3) All farm holding-tanks shall be so constructed that accurate measurements of the contents may be made at one point in the tank by means of a measuring device approved by the Minister, and the relationship these measurements bear to the number of pounds of milk contained in the tank at any level shall be determined after the installation of the tank in the milk-house by a person whose qualifications to make such determinations have been approved by the Minister.

(4) Farm holding-tanks shall be firmly anchored to a properly reinforced-concrete floor to prevent any movement likely to interfere with the accuracy of measurement, and no such tank shall be moved vertically or horizontally except by permission of and under the supervision of an Inspector.

(5) (i) All measuring-rods used to measure milk in farm holding-tanks shall be of stainless steel or such other material as may be approved by the Minister.

(ii) Graduation marks on the measuring-rod shall be plainly milled or stamped in inches, and

in halves, quarters, eighths, sixteenths, and thirty-seconds thereof.

(iii) Graduation marks shall be so milled or stamped that the same may be easily read and distinguished.

(iv) Numerals designating inches marked on measuring-rods shall be from bottom to top.

(v) Every holding-tank shall be accompanied by a chart which shall be posted on the wall convenient to the tank, enclosed in a transparent waterproof cover and bearing the following information:—

(a) A conversion table showing the number of pounds of milk represented by each graduation mark on the measuring-rod. Such conversion table shall be based on the factor of one imperial gallon equalling 10.297 pounds:

(b) The name of the manufacturer of the tank and the serial number of the tank:

(c) The exact location of the tank in the milk-house at the last calibration:

(d) The date of calibration and the signature of the calibrator.

(vi) Every farm holding-tank shall be permanently marked at the gauge point where the measuring-rod was inserted for calibration, and all measurements of milk shall be taken at this point.

(vii) The measuring-rod shall be fixed in a holder at the gauge point of the tank so that the maximum swing at the lower end of the rod shall not exceed the following: Three-quarters of an inch ($\frac{3}{4}$ ") for a rod thirty inches (30") or less in length; one and one-quarter inches ($1\frac{1}{4}$ ") for a rod over thirty inches (30") but under sixty inches (60") long; one and one-half inches ($1\frac{1}{2}$ ") for a rod over sixty inches (60") long.

Tank-trucks

72. Tank-trucks shall conform to 3A Standards, and the owner or lessee of a tank-truck shall not operate such tank-truck for transporting milk without first obtaining from the Minister a permit so to do.

73. (a) Every tank-milk grader shall be the holder of a special licence issued by the Minister stating that he has successfully passed an examination in the care and handling of milk and is qualified to take such samples as are required to determine the grade of milk in so far as a sensory examination will permit.

(b) Special licence issued under Regulation 53 to tank-milk graders shall be subject to the condition that if the holder of such special licence violates any provision of the Act or of the regulations, and in particular if he fails to comply with Subregulation (b) of Regulation 64 relating to the measuring and sampling of milk in a farm holding-tank or fails to take the precautions necessary to prevent contamination of the milk in his care either by the use of insanitary methods or equipment or by being unclean in his personal habits or by failing to dress in clean clothing, the Minister, upon proof to his satisfaction of the fact of any such default and without the necessity of holding any hearing, may suspend the special licence and all rights of the tank-milk grader thereunder for such period as the Minister may see fit or may cancel the licence.

74. All persons operating creameries or dairies shall comply with the following requirements:—

Buildings

(1) The floors of all rooms in which milk or manufactured milk products are processed, pasteurized, manufactured, or stored shall be of concrete or other impervious material with smooth surface, graded not less than one-quarter of an inch ($\frac{1}{4}$ ") to a foot to the drains and with drains trapped and kept in good repair. Floors shall be properly joined and coved with walls to form water-tight joints.

(2) Walls and ceilings of rooms in which milk or manufactured milk products are processed, pasteurized, or manufactured shall have a smooth,

sound, light-coloured surface. Walls may be of a darker colour to a height of not more than forty-eight inches (48") from the floor.

(3) All openings to the outside shall be effectively screened, or other means provided to eliminate flies. Self-closing doors shall be installed in any doorway leading to or from a room used for the processing, pasteurizing, or manufacturing of milk or manufactured milk products, excepting openings leading to refrigerated storage.

(4) Rooms shall be ventilated to prevent odours or undue condensation of water-vapour. Natural or artificial light, or both, properly distributed, shall be provided in all rooms where milk or manufactured milk products are processed, pasteurized, or manufactured.

(5) Separate rooms shall be provided for:—

- (a) Receiving and grading milk and washing producers' cans:
- (b) Receiving and washing bottles, plant cans and cases:
- (c) Processing, pasteurizing, cooling, or manufacturing of milk or manufactured milk products:
- (d) Storing of milk or manufactured milk products:
- (e) Storing supplies:
- (f) Steam-plant and refrigeration equipment:
- (g) Washrooms and toilets for male and female employees:
- (h) Dressing-rooms or lunchrooms:
- (i) Testing-room or laboratory.

(6) (a) The various rooms in a creamery or dairy shall be so located as to prevent contamination of milk or manufactured milk products or of the cleaned equipment.

(b) The premises of any creamery or dairy shall be so constructed and maintained as to prevent the entrance of rodents, flies or insects, or the infestation of the premises by them. Animals shall not be allowed in the building.

(c) Smoking or spitting shall not be allowed in rooms where milk or manufactured milk products are processed, pasteurized, manufactured, or stored.

(d) Rooms in which milk or manufactured milk products are processed, pasteurized, or manufactured shall not be used as public entrance-ways to other buildings or rooms, or for the retail sale of milk or manufactured milk products.

(e) A creamery or dairy shall be used for no other purpose than the receiving, processing, pasteurizing, manufacturing, storing, packaging, and selling of milk or manufactured milk products and the operations incident thereto.

(7) Conveniently located sanitary toilets shall be provided. They shall be in rooms having impervious floors and smooth walls, with adequate ventilation, be properly equipped, and shall not open directly into any room used for processing, pasteurizing, manufacturing, or storing of milk or manufactured milk products.

(8) Hand-washing facilities, including hot running water, soap, and sanitary towels, shall be provided convenient to or in all toilet-rooms.

(9) An adequate supply of hot and cold water shall be available.

(10) The owner or operator of a creamery or dairy shall, when required, show evidence that the water-supply and disposal of sewage and waste material meets the requirements of all health regulations.

(11) The premises of any creamery or dairy shall be kept free of waste, debris, standing water, or any other condition which would tend to create a hazard to the processing, pasteurization, manufacture, or storage of milk or manufactured milk products.

Equipment and Supplies

(12) (a) All equipment used in the processing, pasteurization, manufacture, or storage of milk or manufactured milk products shall be of a type approved by the Department, which approval shall be based on 3A Standards.

(b) No defective, unsuitable, or insanitary equipment shall be used for processing, pasteurizing, manufacturing, storing, or marketing of milk or manufactured milk products.

(13) All supplies kept for use in connection with the processing, manufacturing, packaging, storing, transporting, or marketing of milk or manufactured milk products shall be protected at all times from contamination of any kind, and shall be stored in a room approved for such use and maintained in a clean, dry condition.

Maintenance and Procedure

(14) (a) All equipment used in the processing, pasteurizing, manufacturing, or storing of milk or manufactured milk products shall be maintained, cleaned, and sanitized before use in a manner consistent with good dairy practice and approved by the Minister.

(b) Producer's milk-containers shall be thoroughly cleaned, subjected to an approved bactericidal treatment, and returned to the producer dry.

Milk for Human Consumption

(15) Where milk is pasteurized for human consumption, all operations incident thereto shall be carried out in a room provided solely for that purpose, and no other operations shall be performed in such room except with the approval of the Minister.

(16) All operations in connection with the processing, handling, and pasteurizing of milk for human consumption shall be carried out in an approved manner and sequence.

(a) No such milk shall be clarified, filtered, or strained after pasteurization:

(b) No milk-bottles shall be filled or capped except by use of mechanical equipment:

(c) No milk which has overflowed or leaked from a valve, pipe, or any container or drained from equipment shall be used for human consumption:

(d) No milk shall be held for longer than two hours before pasteurizing for human consumption, unless such milk has been kept at a temperature of 50° F. or lower.

In the case of emergency or under very special circumstances for good cause shown, the Minister may postpone, for such limited time as he may by direction in writing establish, the requirement of compliance with the provisions of Subregulation (5) or (6) of this regulation, but such postponement shall be granted only upon receipt by the Minister of satisfactory assurances of speedy compliance with the provisions of the said clauses.

Pasteurizers

75. (1) *Equipment.*—Holder-type pasteurizers shall be provided with:—

(a) Indicating and recording Fahrenheit thermometers of an approved type:

(b) Valves of close-coupled and leak-protector plug type with approved stops.

(2) *Operation.*—(a) The temperature reading on the recording thermometer shall be checked daily with that on the indicating thermometer, and the recording thermometer adjusted if necessary so that its reading is at no time higher than that of the indicating thermometer.

(b) The reading on the indicating thermometer, taken during the last twenty-five minutes of the holding period, shall be written on the recording chart at the same time, and a mark made on the chart to indicate the position the pen was in when the reading was taken.

(c) The bulbs of indicating and recording thermometers shall be kept submerged in the milk throughout the heating, holding, and such cooling period as may take place in the pasteurizer.

(d) Agitation shall be continuously maintained throughout the heating, holding, and cooling operations, except where the level of the milk is such that agitation would cause churning or foaming.

(e) Inlet pipes shall be removed and all openings shall be closed and kept closed during the holding and cooling operations.

(f) Proper measures shall be employed at all times to prevent the formation of foam.

76. *Equipment.*—(1) *High-temperature short-time pasteurizers* shall be provided with:—

(a) Indicating and recording Fahrenheit thermometers of an approved type;

(b) A milk-flow stop recording thermometer (recorder-controller) designed for sealing, which shall be provided with additional pen to record upon the chart a full record of the time during which the milk is in a forward flow direction. The recorder-controller shall be so designed that the interval between the moment of power cut off during descending temperatures and the moment where the forward flow of milk ceases shall not exceed one second;

(c) A flow-diversion valve of approved type;

(d) A holding-tube having a continuous upward slope from the inlet to the flow-diversion valve and equipped, when required, with the necessary fittings for checking the holding-time by means of saline solution;

(e) A variable-speed milk-pump, located at the raw-milk inlet of the final heating chamber, of such design that it may be set not to exceed a predetermined speed.

(2) *Operation.*—(a) The pressure of the milk which has passed through the holding-tube shall, in the regenerative section of the pasteurizer, be greater than that of the incoming raw milk.

(b) No equipment other than the pump described in clause (e) of Subregulation (1) of this regulation shall be used to pump milk through the final heating section of the pasteurizer.

77. The recorder-controller and the variable-speed pump on every high-temperature short-time pasteurizer shall be set and sealed by the Department so that all of the milk being pasteurized by such method shall be held for at least sixteen seconds at a temperature no lower than 161° F.

78. In addition to information marked on the recording thermometer chart as required by clause (b) of Subregulation (2) of Regulation 75, the following shall be placed on all charts: Pasteurizer number (where more than one pasteurizer is used), lot number, date of use, and signature of operator.

79. (a) Recording-thermometer charts shall be filed in order of use and kept in a clean, dry condition for three months and shall be available for inspection at all times by an Inspector.

(b) No chart shall be used for more than one day, except with permission and under the direction of an Inspector.

80. Subject to the provisions of the Act, milk or manufactured milk products may have added thereto vitamins, colouring matter, or flavouring materials dissolved in or mixed with fat or oil other than milk-fat in such quantities as are proven to be necessary so that such fat or oil may be a vehicle for such vitamins, colouring matter, or flavouring materials and where such materials and quantities are within the limits and standards set by the regulations under the "Food and Drugs Act" of Canada.

81. Milk shall be deemed to be diluted or adulterated when an examination made by an Inspector or other competent person by means of a test carried out according to Standard Methods shows the milk to be diluted or adulterated.

82. All buttermilk, skim-milk, and whey from creameries or dairies shall be effectively heated to destroy pathogenic organisms before being sold or used for food for live stock.

Bacterial Standards for Pasteurized Milk

83. (a) The bacterial content of pasteurized milk for human consumption in fluid form shall be not more than thirty thousand colonies per millilitre, and in the case of cream, sixty thousand colonies per millilitre.

(b) The coliform bacteria density of pasteurized milk or cream for human consumption in fluid form shall not exceed an average of one coliform colony per one millilitre of milk or cream.

84A. Satisfactory compliance to Regulation 83 shall be as follows:—

(a) If the logarithmic average of the results of the standard plate count of the last four consecutive samples is not more than thirty thousand bacteria colonies per millilitre in milk or sixty thousand in cream; and

(b) If not more than one of the last four samples taken from milk pasteurized on four separate days shows the presence of coliform bacteria in more than three out of five one-millilitre portions of the sample.

84B. Where an Inspector finds the operator of a creamery or dairy to be delivering or holding for sale for human consumption pasteurized milk or cream in fluid form which does not comply to the bacterial standards as set out in Regulation 83, and when unsatisfactory compliance was determined by the methods prescribed in Regulation 84A, he shall notify the operator of the fact, specifying the nature of the non-compliance and that a further sample will be taken after four days and tested.

(a) If the non-compliance was in relation to the bacterial content according to Subregulation (a) of Regulation 83, the results of the plate count of the new sample shall be averaged with the previous samples according to the method set out in Subregulation (a) of Regulation 84A, and if there is still non-compliance, an infraction of the regulations shall have occurred, unless the plate count of the new sample is not more than thirty thousand bacteria colonies per millilitre in the case of milk or sixty thousand bacteria colonies per millilitre in the case of cream:

(b) If the non-compliance was in relation to the coliform bacteria density according to Subregulation (b) of Regulation 83, the results of the coliform test of the new sample shall be considered with the previous samples according to the method set out in Subregulation (b) of Regulation 84A, and if there is still non-compliance, an infraction of the regulations shall have occurred, unless the coliform bacteria density of the new sample is not more than an average of one colony per millilitre of milk or cream.

84C. (a) All bacteria counts and coliform tests shall be performed in accordance with Standard Methods.

(b) Samples shall be taken by an Inspector under the Act not less frequently than once monthly.

(c) Samples shall be taken by the Inspector indiscriminately from cases on delivery-vehicles or on the premises of the vendor.

85. No person shall manufacture for sale, sell, or offer for sale, or have in possession for sale, any milk or manufactured milk product for which standards are prescribed by these regulations which does not conform to such standards.

86. (a) To the extent that they are applicable and are within the jurisdiction of the Province of British Columbia to enact, the regulations under the Canada "Dairy Products Act" shall, *mutatis mutandis*, be regulations under the "Milk Industry Act" pertaining to milk and manufactured milk products.

(b) The regulations under Part II of the said regulations under the Canada "Dairy Products Act" pertaining to export and interprovincial trade shall be regulations under the "Milk Industry Act" pertaining to milk and manufactured milk products produced, manufactured, and marketed within the Province of British Columbia.
